## RHEUMATISM!

ITS CAUSE AND CURE.

BY AN ENGLISH PHYSICIAN

This painful malady was formerly considered to be entirely the result of age, cold or exposure, but medical science has now demonstrated that it is a disease in the blood, which may be inherited in so dangerous a form as to cause death in youth or middle age, and even in infancy. That the enemy courses through the veins, mixed in life fluid, in a liquid form for a certain length of time; that it gradually, through a variety of causes, becomes partially solidified into a sort of clayey substance. This accumulating in the joints of the fingers, toes and limbs, becomes an obstruction to the circulation, and in time stiffens the joints, causing in many instances great pain and suffering. It also materially affects the healthy action of the vital organs, interfering with the heart, the stomach and the kidneys. A remedy such as that known as Britannia is the best that can be taken to remove the disease, and to give the proper tone to all parts of the system. No external application can remove rheumatism. Patients who use various oils, lotions and liniments, are dying every day from this disease. But no one has yet died of rheumatism to my knowledge who used Britannia, even when the disease was so far advanced as to cause complete prostration. This valuable family medicine can be obtained at Zion's Drug Store, Salt Lake City.
